

Surrey Bankruptcy

Surrey Bankruptcy - Our firm during the past few decades has offered suggestion on all aspects of bankruptcy law, consisting of creditor's remedies, reorganizations and restructurings as well as commercial litigation. Our profile is internationally recognized, and as such we have a large majority of our clients which are globally based. Most of our business regards cross-border insolvencies and restructuring between America and Canada. We are experienced in various matters because of our many domestic relationships with other lenders and professionals. Our knowledge includes working together with financial and commercial groups, domestic and international financial institutions, creditor's committees, trustees, investors, receivers, acquirers and debtors in reorganizations and insolvencies.

The Canadian cross-border insolvency system was developed in part by members of our practice. What's more, the Government of Canada takes our recommendation into consideration when amending Canadian laws which include worldwide business. We are proud to be active members of several global insolvency organizations.
